

Renewable Energies and Energy Efficiency in European Islands

Seminars at the University of La Laguna

Date: February 11th, 2011. Location: Salón de Grados de Informática

Programme

- 10:00 Welcome and Introduction**
Dr. Ernesto Pereda, Director of the High Technical School of Civil and Industrial Engineering of the University of La Laguna (Canary Islands, Spain).
- 10:05 Sustainable Innovation Project**
Agustín Gonzalez, Managing Director of Ricam Cluster on behalf of Turisfera Tourism Cluster and Insignia Cluster (Canary Islands, Spain).
- 10:15 Smart Technology Control - Implementation in the local municipality and for the local industrial players**
Bernd Garbers, Technical Advisor at Samsø Energiakademi (Samsø Island, Denmark)
- 10:30 Energy efficiency in Commercial Buildings**
Dr. Ricardo Guerrero, Director of Renewable Energy Master at the University of La Laguna (Canary Islands, Spain)
- 10:45 Home Energy Efficiency, a Case Study**
Dr. Jan Jantzen, Engineer and Manager at Samsø Energy Agency (Samsø Island, Denmark)
- 11:00 Wireless Sensor Network for Real Time Energy Audits**
Julián Monedero, Managing Director of Dobon's Technology, S.L. (Canary Islands, Spain)
- 11:15 RES Technologies: Cases from Crete, Greece**
Artemis Saitakis, Director of Science & Technology Park of Crete (Crete Island, Greece)
- 11:30 Possibilities in geothermal plants of low enthalpy in the Canary Islands**
Dr. Juan Carlos Santamarta Cerezal, INGENIA Research Group Coordinator at the University of La Laguna (Canary Islands, Spain)
- 11:45 "Desalination and renewable Energy" group status**
Dr. Isabel Martín Mateos, researcher at the Desalination and Renewable Energy Group at the University of La Laguna (Canary Islands, Spain).
- 12:00 Round table: Research Cooperation Projects between European Insular Regions**
All participants and audience
